STOP THE MESS!!

TRASH CHUTE OFFSET & DUAL BLADE GUILLOTINE

WALL SPLATTER (CHUTE TOO HIGH)

BEFORE

DOUBLE OFFSET W/ DUAL GUILLOTINE

AFTER

WILKINSON HI-RISE offers trash chute offset solutions for customers dealing with messy wall splatter conditions in their trash rooms.

The “BEFORE” photo above depicts 1) wall splatter from falling waste using incorrectly designed trash chute that is too high above the waste container 2) broken “guillotine” assembly and 3) rotted out trash chute offset section.

The “AFTER” photo above includes the solution provided including 1) double trash chute offset sections (15 degree), 2) new dual blade guillotine, and 3) lower chute elevation to eliminate wall splatter & unhealthy condition.

Please call our service department for a free onsite inspection & estimate at (954) 342-4346 and ask for Mark Kavulich, Service Manager – Florida.
